

“YOUR SUPPLIER FOR REMANUFACTURED COMPRESSORS “ SONI AIRCON PVT LTD

Edition: April 2022

WHY SONI AIRCON PVT LTD!

QUALITY & PRICE.

Compared to competitors our prices are much better. You get an exact replacement and not a generic model so we can save you not only money, but time. The fact is, we are a true remanufacturer, not a rebuilder or repair shop. Don't be fooled by the competition. None of them have the same process or quality that you'll get with SONI AIRCON PVT LTD.

MISSION

Our goal is to provide our customers with high quality equipment with longevity, the latest industry protection devices available, and a comprehensive installation package. This will lead to a smooth and easy installation, lack of short-term failure, and low replacement rate.

INDUSTRY LEADING WARRANTY

We provide the highest quality products and to back up our claim, we are the only company that prints out actual computer run test results with our compressors. Testing is done hands-free; the computer runs the test and we show you the results.

Our high quality allows us to offer warranty coverage as well as allowing our customers to purchase extended warranty coverage up to **1 year**.

INHOUSE MANUFACTURED

FILTER DRIER **FREE** WITH COMPRESSORS

We Designed and manufacture inhouse Filter Drier and provide free along with our compressors to Protect Your System

A filter drier is designed to protect a system from moisture, acids, and solid contaminants. Moisture can clog an expansion device with ice, reduce system efficiency due to the thermodynamic properties of water, or combined with high temperatures and pressures and oils in the system, can form acids, which damage the compressor and other components. Solid contaminants can clog expansion devices and wear compressors prematurely. So quite simply, filter driers should be judged on their ability to protect the system.
